**WELCOME  
TO  
REACO  
WORLD**

## ABOUT - REACO

REACO has been commissioned by a team of investors who have strived to build a legacy ecosystem that reflects their accomplishments in life. While catering to the needs of like-minded connoisseurs through bringing to them a Boutique NFT Marketplace, Team REACO also wanted to give a taste of luxury to REACO's worldwide token holders through its revolutionary super-staking platform.

At REACO, we like to do things differently! That's why apart from the regular staking options, we are bringing to you Super-staking Pools. These pools will yield real-world incentives such as complimentary stays in your dream destinations, supercar experiences, discounts on property purchases, hotel bookings, restaurants, spas and much more while also offering breathtaking prizes through our Luxury Raffle Pools.

While building on the token's 'Super-staking Pools' concept, REACO aims to add unique real-world collectibles to its treasury, the future upside of which will be distributed amongst the Super-staking Pool stakers. Another one of REACO's key future goals is to develop luxury physical real estate and make the REACO investors fractional owners in proportion of their investment in the REACO's DeFi ecosystem. These will be first of their kind DeFi usages in the crypto world and would ensure that the TVL of the Project has hard assets to boast of; not just borrowed tokens from a partner DeFi protocol.

REACO's boutique NFT Marketplace will allow connoisseurs from across the globe to not just get their tailor-made NFTs designed by creative minds with an inherent eye for luxury but also get those freshly minted NFTs installed into Token Frames and delivered to their doorsteps.

While building on the token's 'Super-staking Pools' concept, REACO aims to add unique real-world collectibles to its treasury, the future upside of which will be distributed amongst the Super-staking Pool stakers. These will be first of their kind DeFi usages in the crypto world and would ensure that the TVL of the Project has hard assets to boast of; not just borrowed tokens from a partner DeFi protocol!

## **SUPER STAKING PLATFORM**

We are bringing to you a revolutionary Super Staking Platform that yields real-world rewards, luxury prizes and exclusive lifestyle perks. All this, in addition to high APYs in crypto with in-house auto-compounding. REACO - Connecting the Real World.

## **NFT MARKETPLACE**

Our boutique NFT marketplace loves to spoil the connoisseurs! Every time a bespoke NFT is purchased, we install it in a physical digital Tokenframe and deliver it to their doorsteps. They also get a complimentary membership of our signature Metaverse Arts Club where they get to mingle with the Crème de la crème.

## **THE REACO SHOP**

The Holders of REACO tokens and NFTs get exclusive access to the REACO Shop. The users can buy their choice of merchandise outright or the REACO Community can bid for items such as limited edition REACO Merchandise through embedded auctioning facility.

## REACO WALLET

REACO Wallet is easy to use comes with friendly interface, you can Send, Receive and Store various Crypto Currencies and stable coins safely and securely with the Reaco Wallet mobile app. Reaco wallet provides you with a secure access key that keeps your assets safe against unauthorized access.
